

About this product

Includes generated contents

- **Durable and Versatile Design:** This custom metal case is designed to meet the specific needs of our valued customers, including you, who are looking for a reliable and long-lasting solution for their desktop PC setup. Made from high-quality materials such as stainless steel, steel, aluminum, and more, this product is built to withstand the rigors of daily use.
- **Customization Options:** With our advanced manufacturing capabilities, including laser cutting, precision stamping, bending, and CNC punching, we can tailor your custom metal case to fit your exact specifications. Whether you need a specific shape, size, or finish, our team will work with you to bring your vision to life.
- **Multiple Surface Treatments:** Our custom metal case offers a range of surface treatments, including brushing, polishing, anodizing, powder coating, plating, and sandblasting, allowing you to choose the perfect finish for your needs. Whether you prefer a sleek and modern look or a rugged and industrial aesthetic, we have the expertise to deliver.
- **Certified Quality:** Our custom metal case meets international standards, including ISO and ROHS certification, ensuring that our products meet the highest quality and safety requirements. You can trust that our products will perform reliably and safely in your applications.
- **Wide Range of Applications:** Our custom metal case is suitable for various industries, including appliance, automotive, building, capital equipment, and more. Whether you need a custom metal case for a specific project or a long-term solution, our team is dedicated to delivering exceptional results and exceeding your expectations.

Custom Precision Sheet Metal Fabrication Parts

Quotation	According to your drawing(size, material, thickness, processing content, and required technology, etc)
Material	Carbon steel, SPCC, SGCC, Stainless steel, Aluminum, Brass, Copper, etc.
Processing	Laser Cutting, Precision Stamping, Bending, CNC Punching, Threading, Riveting, Drilling, Welding etc
Surface Treatment	Brushing, Polishing, Anodizing, Powder Coating, Plating, Silkscreen printing, Sandblast, etc
Tolerance	+/-0.2mm, 100% QC quality inspection before delivery, can provide quality inspection form
Logo	Silk print, Laser marking.
Size	Accept custom size.
Color	White, black,silver, red, grey, Pantone and RAL, etc
Drawing format	DWG, DXF, STEP, IGS, 3DS, STL, SKP, AI,PDF, JPG, Draft.
Sample lead time	No surface treatment, 1-3 workdays. Require surface treatment, 3-5 workdays.
