

Products Description:

Rack mounted optical distribution frame (ODF) is the device that terminates between the optical cables and the optical communication equipment, function of splicing, termination, storing and patching of optical cables. SP rack mount fiber enclosure, a versatile solution in multiple sizes (1U/3U/4U), available for both the MPO cassettes and Splicing. Styles for building backbones, data centers and enterprise applications.

Feature:

- * Standard 19".
- * 1.2mm/1.5mm cold rolled steel sheet as raw material.
- * 1RU High-density Patch panel holds up to 12 pcs 24F Cassettes or adaptor plates
- * Pluggable MPO Cassette, smart but delicated, speed deployment and improve flexibility and manager ability for lower installation cost
- * Comprehensive accessory kit for cable entry and fiber management.
- * Full assembly (loaded) or empty panel.
- * Different 92-adaptor interface including ST, SC, FC, LC, etc.
