

Description:

Fiber Optical PLC Splitter

Specification	1x2/ 1x4/ 1x8/ 1x16/ 1X32 /1x64 1x128 PLC Optical Splitter
Connector	SC APC SC UPC
Length	1M/2M/3M...customized
Application	FTTH FTTB FTTX network

Characteristics:

Mini PLC Optical Splitter

Uniform light distribution
The signal can be evenly distributed to users

G.657A Fiber Core

Ceramic Insert

Uniform light distribution

Strong stability

High-quality transmission chip

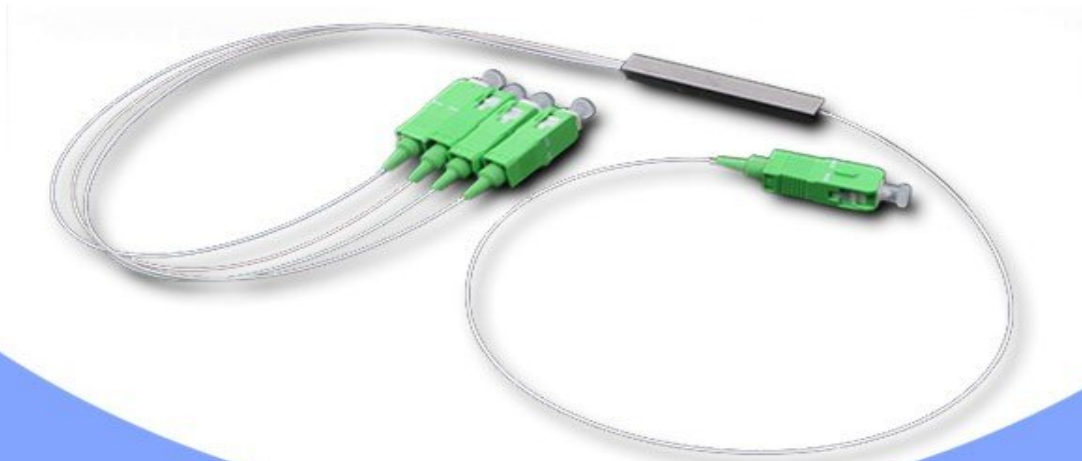

New upgrade chip, Quality Assurance
Stable performance

Low insertion loss and high return loss

This product is made of new ceramic insert
with excellent performance,
stability and durability

Choose high-quality Fiber

Low insertion loss, High back reflection
Low polarization dependent loss

Description:

Network transmission,
Fiber optic communication systems
Fiber optic home access
Fiber optic data transmission
Fiber optic CATV, LAN
Fiber optic testing equipment
Fiber optic sensors, etc
